

PORTÉGÉ® X45W

CONVERTIBLE FLEXIBILITY. PRO-GRADE PERFORMANCE

Combining AMD Ryzen™ processing, an MPP2.0 digital pen and Windows Ink support, the Portégé® X45W delivers versatile performance and natural inking in a premium 14-inch 2-in-1 convertible design. Built for productivity in every mode, it keeps teams moving with durable Dynabook engineering, modern connectivity, and collaboration-ready features.

NEW STANDARD OF PRODUCTIVITY

Powered by AMD Ryzen™ 200 Series processors with up to 8 high-efficiency cores and integrated AMD Radeon™ Graphics, this innovative 14-inch 2-in-1 convertible laptop delivers responsive performance for everyday multitasking, collaboration and data analysis.

AI ASSISTANCE THAT WORKS LIKE A WINGMAN

Select Portégé X45W models include an integrated NPU to accelerate on-device AI experiences like smarter conferencing, local AI assistants, and accelerated content creation. Together with Microsoft Copilot and a dedicated Copilot key, users can streamline workflows, summarize content, and automate repetitive tasks.

PROFESSIONAL GRADE DIGITAL INKING

Turn ideas into action with an active MPP 2.0 pen featuring 4096 pressure levels, tilt support, and palm rejection for a natural writing experience. The USB-C rechargeable pen includes a convenient holder and fast charging for quick note-taking, markups, and sketches.

DURABILITY MEETS PORTABILITY

Engineered for the realities of hybrid work, the Portégé X45W's aluminum alloy chassis is designed to pass MIL-STD-810H methodologies and HALT durability testing—helping it stand up to life on the move without sacrificing a sleek, premium feel.

VERSATILE CONNECTIVITY

Dynabook delivers superior connectivity via Wi-Fi 7, Bluetooth and a Gigabit LAN port, providing fast and reliable network access in any environment. The Portégé X45W is equipped with HDMI, USB Type-C, USB Type-A ports, and a microSD card slot to eliminate the need for dongles and adapters.

A UNIQUE PERSPECTIVE

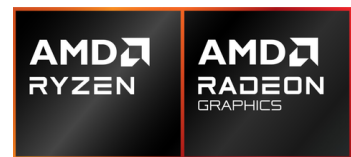

A front-facing FHD webcam with an electronic camera shutter ensures clear video conferencing, high-quality photos and privacy in any mode.

Laptops That Defend Against Cyber Threats

Dynabook's Windows 11 Secured-core PC laptops offer advanced security by integrating robust hardware and software defenses into their core components. These laptops provide a fortified shield against sophisticated cyber threats, employing specialized hardware protections and firmware safeguards. They ensure unparalleled security from boot-up, defending against malware and firmware attacks to safeguard critical data and uphold the integrity of business operations.
